Professional Summary

Results-driven Product & Technology Leader with 10+ years of experience building scalable EdTech platforms, AI-powered learning systems, and high-performing engineering teams. Proven expertise in product strategy, system architecture, and full-stack development across ERP, CRM, LMS, analytics, and assessment ecosystems. Led teams of 20+ engineers and improved development efficiency by 30–40% through AI-assisted workflows and automation. Passionate about leveraging AI and technology to transform K-12 education, innovation learning, and student engagement at scale.

Core Competencies

- Product Management & Strategy
 - Engineering Team Leadership & Scaling
 - System Architecture & Design
 - AI-Assisted Development & Automation
 - Agile/Scrum Methodologies
 - Stakeholder Management & Business Alignment
 - Data-Driven Decision Making
 - Process Optimization & Delivery Excellence
-

TECHNICAL SKILLS

Languages & Frameworks: PHP, Laravel, JavaScript, Vue.js, Nuxt.js, React.js, Next.js

Databases: MySQL, PostgreSQL, SQL

APIs & Integration: REST APIs, API Design, Microservices

Tools & Platforms: Git, WordPress, AI Tools (Claude Code), Data Analysis & Reporting

Methodologies: Agile, Scrum, CI/CD, DevOps Practices

Key Achievements

- **Productivity Improvement:** Increased development efficiency by 30-40% by implementing AI-driven development workflows and automation tools
 - **Platform Delivery:** Successfully delivered and managed multi-product EdTech platform ecosystem serving 10,000+ users, aligning engineering with business outcomes
 - **Team Scaling:** Grew and mentored engineering team from 10 to 15+ members while maintaining high delivery standards and team productivity
 - **Data-Driven Leadership:** Defined and tracked KPIs using SQL-based analytics to drive product decisions, resulting in improved user engagement and revenue growth
 - **System Architecture:** Architected scalable, high-performance systems supporting multiple concurrent products (ERP, CRM, Analytics, Exam Systems)
 - Platform Features developed: [Features \(Click Here\)](#)
-

Bachelor of Technology in Computer Science and Engineering

Jawaharlal Nehru Technological University Hyderabad (JNTUH) | 2015

Key Platforms & Projects

- **EdTech Platform:** Multi-product system (ERP, CRM, admissions, analytics, student lifecycle)
 - **AI System:** Automated question paper generation, AI Avatar based Interviews, AI based Evaluations
 - **Learning Systems:** Exam engine, engagement, and gamification modules
 - **Commerce Systems:** Digital wallet, store management, B2B invoicing
 - **Custom CMS:** Platform for content, lead tracking, and marketing workflows
 - **Mobile Apps:** Integrated applications for real-time user engagement
 - **AI Transformation:** Improved development speed through AI workflows
-

Professional Experience

Factly Media & Research

02/2021 - Present

Product Manager

Hyderabad, Telangana

- Lead end-to-end product and technology strategy across multiple platforms, managing \$2M+ annual technology budget
- Manage and mentor cross-functional team of 20+ engineers, designers, and QA professionals, driving ownership and accountability
- Architected and scaled multi-module EdTech platform including ERP, CRM, Admissions, Analytics, AI MicroServices and Exam Systems serving 10,000+ active users
- Introduced AI-assisted development practices using Claude Code and automation tools, improving delivery efficiency by 30-40%
- Designed system architecture for scalable, high-performance applications handling 100,000+ daily transactions
- Partner with C-suite, business, and sales teams to align product roadmap with revenue targets and operational needs
- Streamlined agile delivery processes, reducing release cycle time by 50% and eliminating deployment bottlenecks
- Implemented data analytics framework using SQL and custom dashboards to track KPIs and inform strategic decisions
- Delivered AI-powered learning platforms including LMS, entrepreneurship-focused assessment systems, gamified exam engines, analytics dashboards, and student engagement platforms supporting innovation-driven learning.
- Reduced system downtime by 90% through improved monitoring, testing, & deployment practices

Abhyaas Edu Technologies Pvt Ltd

07/2016 - 02/2021

Product Manager

Hyderabad, Telangana

- Led development and delivery of 10+ web platforms including sales websites, SEO-optimized solutions, and custom WordPress implementations
- Designed and developed scalable backend systems using Laravel and REST APIs, supporting applications with 50,000+ monthly active users
- Built and customized WordPress plugins to extend functionality and improve business workflows, reducing manual processes by 60%
- Developed and maintained full-stack applications using Laravel, Vue.js, Nuxt.js, and React.js with focus on performance and user experience
- Contributed to system architecture decisions ensuring scalability, maintainability, 99.9% uptime
- Mentored 5+ junior developers, improving team productivity by 25% through code reviews, best practices, and technical guidance
- Delivered multiple high-impact projects within budget and timeline, maintaining quality standards and client satisfaction rate of 95%
